-

Applications

Epic Meal Planner | *Meal Planning, Recipe & Calendar App* | [GitHub](#) / [Live](#)

- Team developed, full stack mobile application to provide help with meal planning for a healthier life style
- Built with full **React** front-end using **Fetch API** to work with back-end, utilizing **JSON**, **PHP**, and **MySQL**
- Used **Meistertask**, daily standups, **sprints**, and **release candidates** to track progress with **Agile**
- Utilized **HTML5**, **CSS3**, and **Bootstrap** based on collaborated **Figma** to create a cohesive **UI/UX design**

Cheers & Beers | *Craft Beer E-Commerce Site* | [Github](#) / [Live](#)

- A full stack shopping cart app to view products, add to cart, and purchase craft beers from local breweries
- Built out **React** components in **jsx** while managing both a **global state** and **local state** within components
- Created a **REST API** in **PHP** to send **JSON** encoded data from the server to client, and from client to server
- Responsive mobile and desktop with **HTML5**, **CSS3**, and **Bootstrap**

Game of Memory | *Memory Match Card Game* | [Github](#) / [Live](#)

- A "Game of Thrones" themed card game with live updating statistics and a win condition
 - Created core **HTML5** skeleton to allow for dynamic **DOM** manipulation & creation using **jQuery**
 - Built logic in procedural **JavaScript** for card matching, win condition, and calculating statistics
 - Implemented **CSS3 media queries** for responsiveness across mobile, tablet, and desktop viewports
-

Professional Experience

Marketing Coordinator Supervisor | *Reborn Cabinets Inc., Anaheim, CA* Oct. 2016 ~ Mar. 2019
